## Magnetic Forklift Sweeper

Ideal for keeping car parks, container depots and warehouses free from metal debris such as swarf, nails, nuts & bolts etc., the forklift magnetic sweep magnet simply slides onto the forklift forks, offering quick and easy operation.

With a corrosion resistant, robust design, this forklift magnetic sweeper will pick up metal contamination from approx 4-5" off the ground. The magnetic surface of the sweeper is easily cleaned, and once your cleaning operations are complete, the forklift magnet can be removed from the forklift for use at a later date.

### Features & Benefits

- Strong magnetism suitable for picking up metal debris 4-5" from the ground
- Robust design providing long service life properties
- 'T' screw retention to forklift forks ensures magnet is safely retained to the lift truck
- Non magnetised cleaning strip allows metal debris to be easily brushed off
- 'CE' marked and supplied with Certificate for Conformity to meet health & safety regulations
- Magnet is 1500 Gauss
- 1200mm, 1500mm and 1800mm available.
